

D.C. PREPARING FOR WAR DRAFT

Would-Be Officers in Next Camp Face Rigid Ordeal.

Commissioner Louis Brownlow yesterday afternoon issued instructions to members of his staff to round up weighing machines, eye-test cards and the other paraphernalia which will be used by the local authorities in selecting the physically fit from the young men of the District who are to be drafted. Physical requirements for the new national army are to be strict. Regulations outlining physical requirements for the conscript army were issued by the War Department yesterday.

Must Strip for Test.

Many of the police stations which, with certain city schools, were used as registration booths will prove inadequate, Commissioner Brownlow states, to handle the more complicated task of conducting physical examinations. For this examination men will have to be stripped.

Almost any disease of the lungs or heart is disqualifying. Men must be at least four serviceable eyes. The chest measurement should be between 31 and 33 inches. Pulse must be near normal. Chronic disease of any kind will disqualify the drafted man. The feet should be in fair condition. Pronounced flat feet disqualify. The mental test is only to develop whether the man is of sound understanding.

The names of the 32,327 men who registered in the District have been posted with their serial numbers in the offices of the eleven District exemption boards. Of the total war registration in the District only seventy-nine are unaturalized Germans.

Drawing of one number, it is stated, will result in the first approximately 30,000 men. It is in red ink the serial number found in the eleven districts of the city as follows:

No. 1 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 2 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 3 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 4 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 5 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 6 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 7 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 8 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 9 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 10 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 11 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 12 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 13 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 14 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 15 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 16 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 17 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 18 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 19 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 20 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 21 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 22 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 23 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 24 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 25 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 26 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 27 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 28 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 29 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 30 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 31 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

No. 32 Police Station, Fifth and E streets, for registrants at Franklin School and Thompson School.

WAR BREAD IS BUNK, LOCAL CHEFS CLAIM

Declare Recipe to Cut Living Cost All Wrong, Also "Sour."

"What's a fellow going to do?" is the attitude taken by the bread bakers in Washington. They claim that the recipe for "war bread" is all wrong, and that it will be impossible to make good bread if they follow it. The recipe has caused a diversified opinion among bread makers.

One butter tub of stale bread. Ten ounces of water. Ten ounces of salt. Soak thoroughly and strain. One-half pound of yeast. Enough flour to make stiff dough. Knead and bake.

This recipe was presented to Mr. Hoover today with a list of suggestions governing hotel menus. A bread maker employed in one of the large hotels was asked about it. "I want to do my share," he said, "and I am saving in every way possible. But I will never try to make bread according to that recipe unless I am compelled to. Why, it will sour the bread."

Other changes in hotel and restaurant menus that it is proposed to have Mr. Hoover's office approve are: For instance, individuals are to eat of bread and butter; all rolls to be small and to contain 10 per cent substitute flour; toast and bacon as a garnish to be discontinued; and service of fresh pork discouraged, while the broiling, roasting, braising and stewing of all foods are to be encouraged in order to conserve fats.

Baby lamb and sucking pig should be barred from menus, and fried dishes cut down, say the stewards of local hotels.

PROBE TO BE ASKED OF BUREAU AFFAIRS

Miss Rankin Drafting Resolution to Introduce in House.

Representative Miss Jeanette Rankin will ask the House tomorrow to make a sweeping investigation into the Bureau of Engraving and Printing. In her resolution for an investigation of conditions at the Bureau, Miss Rankin will indicate various lines to be followed, but primarily she hopes to get higher wages for the employees, and to get a Federal law to regulate the hours of women in government workshops and offices.

Miss Rankin was busy all day yesterday sympathizing with reports that have been piling upon her by the hundreds of workers in the Bureau, and making the rough draft of the resolution she will present in the House.

BAKER NAMES SITES FOR GUARD CAMPS

Training Stations Are Scattered in Four Southern States.

With less than a week remaining before the first increments of the National Guard are mustered into the Federal service, the War Department yesterday announced training camp sites for a number of States. They are as follows:

Michigan and Wisconsin National Guard at Waco, Tex., and Illinois at Houston, Tex.

Minnesota, North Dakota, South Dakota, Iowa, and Nebraska, at Deming, N. Mex.

Kansas and Missouri at Fort Sill, Okla.

Texas and Oklahoma at Fort Worth, Tex.

California, Utah, Arizona, Colorado, and New Mexico at Lordsburg, N. Mex., Washington, Oregon, and Montana, at Palo Alto, Cal.

Designations of camps for the Guardsmen of the East are before Secretary Baker. They will be announced, probably today. All the camps for these troops are in the southeastern department of the army under supervision of Major Leonard Wood. They are scattered through South Carolina, Georgia, Alabama, and Mississippi.

STEEL KINGS AND U. S. TALK WAR BUSINESS

Prices and Prospective Output Discussed for Defense.

The steel resources of the country were marshaled to the defense of the nation yesterday at a conference between the steel kings of America and the Secretary of War and Navy. Complete figures as to the quantity of steel on hand and what quantities might be expected from the mills in the next two years were discussed.

Today the conference will be continued and prices will be taken up and settled upon. This phase of the situation was only touched upon incidentally yesterday, it was declared, being to get at statistics on the quantity of steel the government may count upon for the manufacture of munitions and ships.

Present at the conference were Secretary of War Baker, Secretary of the Navy Daniels, William Denman, chairman of the Shipping Board; Bernard Baruch, of the Advisory Commission of the Council of National Defense; Judge Elbert H. Gary, chairman of the United States Steel Corporation; James A. Farrell, president of the United States Steel Corporation; Charles M. Schwab, chairman of the Bethlehem Steel Corporation; E. G. Grace, president of the Bethlehem Steel Corporation; J. A. Burden, president of the Burden Iron and Steel Company; E. A. Clark, president of the Lackawanna Steel Company; H. G. Dalton, president of Pickands, Mather & Co.; A. C. Dinkey, vice president of the Midvale Steel and Ordnance Company; J. A. Topping, president of the Republic Iron and Steel Company; and James B. Bonner, representing the American Iron and Steel Institute.

It is believed the government will seek to have the steel men submit their lowest figures, and then compare these with the figures of the Federal Trade Commission report.

CAVALRYMEN RUSH TO SQUADRON LIMIT

Thirteen Men Signed Up Yesterday in Final Lap of Recruiting Drive.

Thirteen men signed up in the District Cavalry yesterday, in the final recruiting drive. They were Edward G. King, Roy O. Stiles, George J. Behrens, Roland L. Davis, Lloyd J. Cave, Marc C. Funderlin, William M. Denham, William G. Bengel, Joseph W. Rodgers, Arthur T. Brett, Howard H. Israel, Leroy J. Ferry, and Clarence H. Bundy.

The men are being put into the new D Troop, which now needs only several dozen men yet to be at war strength.

The four troops—A, B, C, and D—are to go into camp at the old Patterson farm in Florida avenue northeast, July 25, and be there until August 6, when they will be sworn into Federal service and leave for their training camp at Spangdahlem, R. C. The commanding officers of the new C and D troops will be appointed this week, though Lieut. W. Langdon Moore is expected to be captain of C Troop and Lieut. L. L. Krentlin to be captain of D Troop.

Moving pictures of the men of A and B troops, taken while they were in camp at Congress Heights, have been made into a patriotic story, and the picture is being shown today at the Savoy, tomorrow at the Avenue Grand and Saturday at the Apollo.

KNIGHT GETS PLACE DESERTED BY KUTZ

To Succeed Commissioner Leaving for Trenches.

Brig. Gen. John G. D. Knight, U. S. A., retired, was yesterday assigned by President Wilson to active duty as Engineer Commissioner of the District of Columbia. He will succeed Lieut. Col. Charles W. Kutz, Corps of Engineers, who, at his own request, will be assigned to active military duty with troops in the field, probably in France.

Gen. Knight is no stranger in Washington. He has served several tours of duty here and though his present home is at Summit, N. J., he has been a resident of this city for general months past with an apartment at the Westmoreland. He is 71 years old.

Burning rum caused great difficulty to sailors fighting the fire caused by a recent explosion on the Minnehaha. The vessel was in command of Capt. Claret.

MEAT SCARCE? EAT CHEESE.

Columbus, Ohio, July 11.—Because there is slight demand for cottage cheese in cities, thousands of gallons of milk are wasted daily, according to R. B. Stolz, of the college of agriculture, Ohio State University. He says cottage cheese is high in protein and makes a good substitute for meat, and is economical. Greater use of it would conserve the food supply, he points out.

"I don't know, but here's his reservation notice," said the superintendent. And then he tossed over this message:

Submerged submarines can be destroyed by using a sea plane to locate their position below the surface, and by dropping bombs from a boat on the surface over the submerged submarine which will by their weight reach any submerged submarine at any depth, and by exploding upon striking it, destroy it below the surface.

A Drop On a Touchy Corn

Instant Relief! Then Corn or Callus Lifts Off with Fingers.

Just think! You can lift off any corn or callus without one twinge of pain.

A Cincinnati man discovered this ether compound and named it Frezone. Any druggist will sell a tiny bottle of Frezone for a few cents.

You apply a few drops direct upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus has lifted off. You can lift it right off.

Frezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the skin.

Hard corns, soft corns, or corns between the toes, as well as painful calluses, lift right off. There is no pain before or after. Frezone is the only remedy for corns and never let a corn ache twice.—Adv.

much enjoyment will your summer afford, if the safety of your important papers and valuables is commingled in our DEPOSIT VAULTS? We will be glad to take care of them for you.

YOUR SKIN DISEASE IS A WARNING

It Positively Indicates Your Blood Needs Purifying.

When you see a person with clear skin, flushed with the color of perfect health, you will notice that the skin is smooth and free from blemishes. There are no pimples, spots, or humors. It will be true of the face and true of the body. It is a sure indication that rich red blood is coursing through the veins. It means that the blood is full of red corpuscles. It would be able to throw off a minor ailment immediately, and be in much better shape to successfully combat any of the more serious and stubborn diseases, which we are all liable to.

For the same reason that healthy, clear skin is an indication of strong pure blood, blotchy and pimply skin is an indication of a disordered condition of the blood.

Improper eating and drinking, intemperate habits, or unwise treatment of simple infections, causing the blood to deteriorate, producing effete matter which acts as poisons and the circulation carries these poisons to the various tissues, especially the skin. Then the blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and other skin eruptions of various kinds.

Eczema usually appears with a slight redness of the skin, followed by postules, from which flows a fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs.

In Tetter, the skin dries, cracks and bleeds; the acid in the blood dries up the natural oil of the skin, causing a dry, feverish condition.

Acne makes its appearance on the face in the form of pimples and blackheads, while Psoriasis comes in scaly patches on different parts of the body.

The safest way to handle any skin disease is to first purify the blood with S. S. S. and put it in condition to do its work properly. S. S. S. removes the humors from the blood so the skin, instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they are generally needed to use locally in order to soothe the itching and pain, caused by skin affections, cannot permanently cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out the foreign matter and restores the blood to its normal, healthy condition, enabling it thereby to relieve the skin affection. S. S. S. is guaranteed purely vegetable and is for sale at all drug stores. Don't take a substitute. There is nothing "just as good."

Book on skin diseases sent on request. Likewise competent medical advice furnished free. Address Medical Director, Swift Specific Company, 77 Swift Building, Atlanta, Ga.—Adv.

Thieves Get Varied Haul.

Mrs. Dorothy McCombs, 1812 R street northwest, reports stolen from her home in her absence since May 15 a diamond wrist watch, platinum case worth of the sound stuff they need.

"Carriage" on the face, valued at \$800.

Files Bankruptcy Petition.

Frank J. Lusby, a contracting engineer, yesterday filed a petition in voluntary bankruptcy. He lists his assets at \$90 and his liabilities at \$1,907.38.
